Visual References & Style Guide

🎨 Color Palette

The entire VSL lives in a dark, premium, tech-forward world. Purple is the dominant accent — it signals premium AI/tech. Green is reserved exclusively for CTAs and monetary figures to create instant visual association with "action" and "money."

Usage Rules

- **Green (#6bfb82)** — ONLY for CTA buttons, "BREZPLAČNO" text, and € money figures. Never decorative.
- **Purple glow (#b388ff)** — For highlights, underlines, emphasis text. Can be used as rim light color.
- **White** — All headings, main body text overlays. Always bold sans-serif (Inter, Montserrat, or similar).
- **Deep backgrounds** — All lower thirds, text backgrounds use #0a0c1e at 85% opacity.

💡 Lighting & Camera Setup

Lighting Design

- **Key light:** Single softbox at 45° camera-left, slightly above eye level. Soft, controlled — creates dimension without harsh shadows.
- **Rim/hair light:** LED strip or tube light at camera-right-rear, gelled deep purple (#7c3aed). Creates a purple edge on shoulder/head that separates subject from background.
- **Background:** Completely dark or very minimal. If any set dressing, light it with dim purple LED strips. Aim for near-black with subtle purple gradients.
- **Fill:** Minimal to none. Let the shadows be deep. Crushed blacks are part of the look.
- **Overall ratio:** High contrast, 4:1 or 5:1 key-to-fill ratio. Moody, cinematic.

Camera Settings

- **Lens:** 35mm f/1.8 (or 50mm f/1.4 on crop sensor)
- **Aperture:** f/1.8–f/2.0 for shallow depth of field
- **ISO:** Keep as low as possible (100–400)
- **Frame rate:** 24fps for cinematic feel
- **Resolution:** 4K (downscale to 1080p in post for extra sharpness)
- **Color profile:** S-Log3 or V-Log if available. Otherwise, flattest picture profile available.
- **White balance:** Manual 5600K for key light. Let the purple rim stay purple naturally.
- **Framing:** Rule of thirds — eyes at upper third. Slight headroom. Subject offset to one side to leave space for text overlays on the opposite side.

🎥 Visual Style Guide

Talking Head Shots

Two setups needed — **Medium shot** (chest up) for most dialogue, and **Close-up** (face/shoulders) for intense moments, hooks, and CTAs. Both with shallow DOF, dark background, purple rim light. Subject looks directly into camera (no teleprompter look — natural, eye-to-eye connection).

B-Roll Style

- **Screen recordings:** Clean, high-res captures of dashboards, analytics, social media profiles. Apply a subtle purple tint to the screen edges. Use smooth mouse movements — never jerky.
- **Screenshots reveals:** Student results appear with a smooth scale-up + slight bounce animation. Add a subtle glow/shadow behind each screenshot.

- **AI tools montage:** Quick cuts (0.5–1s each) of various AI interfaces — ChatGPT, Midjourney, analytics dashboards. All slightly desaturated with purple overlay.
- **Lifestyle B-roll:** If available — laptop on desk, phone notifications, modern workspace. All dark-lit with purple accent lighting.

Kinetic Typography

- **Font:** Inter Black or Montserrat ExtraBold. Always uppercase for impact text.
- **Animation:** Text slams in from below with a slight overshoot bounce. Hold 2–3 seconds. Fade or scale-out.
- **Positioning:** Lower third for subtitles/emphasis. Center screen for standalone text slides. Numbers (€1,840, 12,300) get extra size + green color (#6bfb82).
- **Key numbers always animated:** Counter/odometer effect for monetary figures (€0 → €1,840 rapid count).
- **Drop shadow:** Every text overlay gets a subtle black shadow (2px offset, 8px blur) for readability against any background.

Transitions

- **Standard cut:** Sharp cut on dialogue. Most common transition (70% of cuts).
- **Smooth zoom:** 1.05x scale punch-in between takes of the same shot (to hide jump cuts). Very common in modern YouTube VSLs.
- **Whip pan:** Fast horizontal wipe between major sections (Hook → Opportunity, Proof → Event, etc.).
- **Glitch effect:** Short (3–5 frame) RGB split + horizontal offset glitch for emphasis moments (big numbers, bold claims).
- **Fade to black:** Only between major sections. 0.5s fade. Never within sections.

Color Grade

- **Overall:** Desaturated by 15–20%. Crushed blacks (lift shadows slightly then crush).
- **Split toning:** Purple (#4c1d95) in shadows, teal (#0d9488) in highlights. Subtle — don't overdo.
- **Skin tones:** Protect skin tones from the color grade. Use a qualified secondary to keep natural warmth.
- **Contrast:** High contrast overall. S-curve in Lumetri/DaVinci — push whites, crush blacks.
- **Vignette:** Subtle corner vignette (-0.3 to -0.5) to draw eye to center.

🎯 Reference Creators & Style Notes

Iman Gadzhi's VSLs

Study for: Clean talking head framing, dramatic single-source lighting, confidence in delivery, premium feel. His "Monetize" VSL is the gold standard structure. Note how the background is almost completely black with minimal set design — all focus on the speaker.

Alex Hormozi

Study for: Bold kinetic typography overlays, rapid cuts between sentences (no dead air), screenshot proof-stacking technique. His editing pace is relentless — every 2-3 seconds has a visual change (zoom, text, cut). Adapt this energy for the proof stack section.

Modern Course VSLs

Study for: Student result reveals (screenshot slides in, zooms to key metric), event date countdown graphics, CTA button animations, lower-third name/result bars. The "social proof wall" technique — multiple results shown rapidly in sequence.

🔊 Audio & Sound Design

Background Music

- **Style:** Dark, electronic ambient. Think Hans Zimmer "Time" meets tech startup trailer. Deep bass, subtle synth pads, building tension.
- **Volume:** -18dB to -22dB under dialogue. Never compete with voice.
- **Dynamics:** Start minimal in Hook, build through Opportunity, peak during Proof Stack transitions, drop for Event explanation, rise again for CTA.
- **Track change:** Subtle shift at each major section. Don't use the same loop throughout.
- Search terms: "dark cinematic ambient" "tech trailer music" "epic corporate dark"

Sound Effects

- **Whoosh:** On every whip pan transition and text slam-in. Short, punchy.
- **UI click/pop:** Subtle digital sound when text appears or screenshots reveal. Think iOS notification but softer.
- **Bass drop:** Sub-bass hit (80Hz, 0.3s) on big number reveals (€41,127, 200M+).
- **Cash register / "cha-ching":** Subtle, not cheesy. On first money mention only (€1,840).
- **Tension riser:** Reverse cymbal or synth swell leading into each new section.
- **Glitch sound:** Digital artifacts sound paired with glitch visual transition.

Voice Recording

- **Microphone:** Condenser or dynamic broadcast mic (SM7B, Rode NT1). Close placement for intimate feel.
- **Room:** Dead room, no reverb. The voice should sound dry, present, and close.
- **Processing:** Light compression (3:1), de-ess, high-pass at 80Hz. No heavy EQ — keep it natural.
- **Delivery:** Pici speaks confident, conversational Slovenian. Not shouty. Not monotone. Varies pace — slower for emphasis, faster when stacking proof. Pauses before big reveals.

🎯 HOOK — 0:00–0:15

01 The Number Drop

0:00 – 0:05 | CLOSE-UP | 5S | ⚡ HIGH

VISUAL DESCRIPTION

Pici's face fills the frame — close-up, eyes locked on camera. Shallow DOF, dark background with purple rim light visible on the edge of his jaw/ear. He speaks with intensity. At "€1,840" — the number slams onto screen in large kinetic typography (green #6bfb82, Inter Black, 120pt equivalent). At "12,300 sledilcev" — second number appears below.

CAMERA MOVEMENT

Static start, then slow 1.02x zoom-in over 5 seconds. Barely perceptible but creates subconscious tension.

SCRIPT / AUDIO

> *"€1,840 na mesec. 12,300 sledilcev. V šestih tednih."*

TEXT OVERLAY

> **€1,840 / mesec | 12,300 sledilcev | 6 tednov**

MUSIC / SFX

Deep bass drone starts immediately. Subtle whoosh on each number appearance. Cha-ching SFX on "€1,840".

MOOD

Immediate shock value. Viewer must be stopped in their scroll within 1 second. No warm-up.

IN: Cold open — no intro, no logo, straight to face

OUT: Quick cut to Scene 2

02 The Proof Screenshot

0:05 – 0:10 | SCREEN RECORDING / B-ROLL | 5S | ⚡ HIGH

VISUAL DESCRIPTION

Full-screen screenshot of Luka's profile — his social media stats and earnings visible. Screenshot scales up from 90% to 100% with a subtle bounce. Purple glow border around the screenshot. Key metrics (follower count, revenue) highlighted with green circles or underlines animated in.

CAMERA MOVEMENT

Ken Burns slow zoom into the revenue metric on the screenshot.

SCRIPT / AUDIO

> *"To ni moj rezultat — to je rezultat 22-letnega študenta iz Maribora, ki je začel brez izkušenj, brez publike, brez obraz pred kamero."*

TEXT OVERLAY

> **Lower third: "LUKA · 22 let · Študent iz Maribora"**

MUSIC / SFX

Music continues building. UI pop sound when screenshot appears. Subtle digital texture underneath.

MOOD

Credibility. Real screenshot = real proof. The viewer's inner voice: "Wait, that's real?"

IN: Quick cut from close-up OUT: Cut back to Pici (Scene 3)

03 The Hook Close

0:10 – 0:15 | MEDIUM | 5S | 📈 BUILDING

VISUAL DESCRIPTION

Back to Pici, now in medium shot (chest up). Slightly different angle or zoom level from Scene 1 to create visual variety. He leans slightly forward — conspiratorial, like sharing a secret. Expression shifts to confident half-smile on "brezplačno."

CAMERA MOVEMENT

Static. Clean medium framing. Subject on left third, open space on right for potential text overlay.

SCRIPT / AUDIO

> *"In on ni edini. Ostani do konca, ker ti bom pokazal točno, kako se pridružiš — brezplačno."*

TEXT OVERLAY

> **"BREZPLAČNO" appears on right side in green (#6bfb82), large, with bounce animation**

MUSIC / SFX

MOOD

Music dips slightly — creates a breath before the next section. Whoosh on "brezplačno" text appearance.

Retention hook. "Stay till the end" — gives viewer a reason to keep watching. Transition from shock to curiosity.

IN: Cut from screenshot

OUT: Whip pan transition to Section 2

💡 THE OPPORTUNITY — 0:15–1:00

04 AI is NOW — B-Roll Montage

0:15 – 0:25 | B-ROLL MONTAGE | 10S | 📈 BUILDING

VISUAL DESCRIPTION

Rapid montage (1–1.5s per shot): AI dashboard with analytics graphs rising → ChatGPT interface generating content → Social media analytics showing growth curves → Stock footage of someone on laptop in dark room with purple lighting. All slightly desaturated with purple color wash. Overlay text "AI NI PRIHODNOST" appears, then glitches into "AI JE ZDAJ."

CAMERA MOVEMENT

Each B-roll clip has its own subtle movement — slow pans, zooms. Creates energy through variety.

SCRIPT / AUDIO

> *"Poslušaj. AI ni prihodnost — AI je zdaj. Vsak dan nastajajo novi načini zaslužka, ki jih večina ljudi sploh ne pozna."*

TEXT OVERLAY

> **"AI NI PRIHODNOST" → glitch effect → "AI JE ZDAJ" (large, centered)**

MUSIC / SFX

Music builds — add rhythmic pulse. Whoosh on each B-roll cut. Glitch sound on text transition. Sub bass hit on "ZDAJ."

MOOD

Exciting, urgent. The future is here and you're either in or you're out. Visual energy should make AI feel tangible and real.

IN: Whip pan from Hook section OUT: Cut to Pici talking head

05 The Big Number

0:25 – 0:35 | MEDIUM + TEXT SLIDE | 10S | 📈 BUILDING

VISUAL DESCRIPTION

Pici in medium shot, speaking directly. When he mentions "€41,127" — hard cut to a full-screen text slide: dark purple background, the number "€41,127+" in massive green typography with a counter/odometer animation (numbers rolling up from €0).

CAMERA MOVEMENT

Talking head: static. Text slide: number has subtle floating animation (slight up-down drift).

Below in white: "zaslužka študentov". Hold for 2 seconds on the number.

SCRIPT / AUDIO

> *"Medtem ko se drugi sprašujejo, ali je 'prepozno' — moji študentje že zaslužijo. In ne govorim o teoriji. Govorim o navadnih ljudeh iz Slovenije, ki so v zadnjih mesecih zgradili realne prihodke z AI."*

TEXT OVERLAY

> **€41,127+ ZASLUŽKA ŠTUDENTOV**

MUSIC / SFX

Deep bass drop when number appears. Counter/ticker sound during odometer animation. Music continues ambient underneath.

MOOD

Impressive, credible. The aggregate number creates a "this is real and bigger than I thought" moment.

IN: Cut from B-roll montage **OUT:** Cut back to Pici

06 Real People, Real Results

0:35 – 0:50 | MEDIUM | 15S | 📈 BUILDING

VISUAL DESCRIPTION

Pici in medium shot, slightly different framing than before (use 1.05x punch-in to differentiate). Animated lower-third bullet points appear one by one as he describes the characteristics: "brez ekipe" (checkmark) → "brez pisarne" (checkmark) → "brez predhodnega znanja" (checkmark). Green checkmark icons appear with each point.

CAMERA MOVEMENT

Very slow zoom-in (1.0x → 1.03x over 15 seconds). Builds intimacy as content gets more personal.

SCRIPT / AUDIO

> *"...brez ekipe, brez pisarne, brez predhodnega znanja. Razlika med njimi in vsemi ostalimi? Odločili so se, da bodo začeli."*

TEXT OVERLAY

✅ Brez ekipe ✅ Brez pisarne ✅ Brez predhodnega znanja

MUSIC / SFX

UI pop on each checkmark appearance. Music stays ambient, slightly rising. Brief pause in music on "Odločili so se, da bodo začeli" for emphasis.

MOOD

Relatable. Viewer sees themselves: "I don't have a team either, I don't have an office either..." Building identification.

IN: Cut from number slide OUT: Cut to Scene 7

07 Your Turn — Bridge to Proof

0:50 – 1:00 | CLOSE-UP | 10S | 🔥 HIGH

VISUAL DESCRIPTION

Cut to tight close-up of Pici. He looks directly into camera with conviction. This is the "you too" moment. Background darkens slightly (reduce rim light intensity in post). The words "TOČNO TO PRILOŽNOST IMAŠ ZDAJ TUDI TI" appear centered in bold white, word by word, in sync with speech.

CAMERA MOVEMENT

Static close-up. Let the words do the work. No movement — stillness creates weight.

SCRIPT / AUDIO

> *"Točno to priložnost imaš zdaj tudi ti."*

TEXT OVERLAY

TOČNO TO PRILOŽNOST IMAŠ ZDAJ TUDI TI.

MUSIC / SFX

MOOD

Music drops to near-silence. Just voice + subtle bass. Then a rising tension swell into the Proof Stack section. Whoosh on text appearance.

Direct, personal. Eye contact + silence + bold statement = maximum impact. This is the pivot — from "others did it" to "YOU can do it."

IN: Cut from medium shot

OUT: Whip pan + glitch transition into Proof Stack

🔥 PROOF STACK — 1:00–2:15

08 Proof Intro

1:00 – 1:07 | MEDIUM | 7S | 🔥 HIGH

VISUAL DESCRIPTION

Pici in medium shot. Confident lean back. He gestures openly — "let me show you." Brief flash of all six student photos/screenshots in a grid behind him (pre-composed graphic, 6 squares in 2×3 grid, slightly blurred/teaser, with purple overlay). Grid appears for 1.5 seconds as a visual preview.

CAMERA MOVEMENT

Static. The visual interest comes from the graphic overlay, not camera movement.

SCRIPT / AUDIO

> *"Naj ti povem o konkretnih ljudeh."*

MUSIC / SFX

Energy shift — music becomes more rhythmic, beat-driven. Sets the pace for rapid proof stacking. Tension riser (reverse cymbal) into first testimonial.

MOOD

Transition moment. "Here comes the evidence." The grid preview creates anticipation.

IN: Whip pan + glitch from Opportunity section

OUT: Quick cut to first testimonial

09 Testimonial: Luka Kovač

1:07 – 1:18 | SCREEN + TALKING HEAD | 11S | 🔥 HIGH

VISUAL DESCRIPTION

Split: First 2s — Luka's screenshot/profile photo scales in from center. Lower-third card appears: "LUKA KOVAČ · 22 · Študent, Maribor". Then key metrics animate in one at a time: "12,300 sledilcev" (white) → "€1,840/mesec" (green) → "6 tednov" (purple accent) → "2 uri/dan" (white). Each metric has its own line with an icon. Then cut to Pici in medium shot for the verbal delivery. Use picture-in-picture: Luka's screenshot shrinks to upper-right corner while Pici talks.

CAMERA MOVEMENT

Screenshot: Ken Burns zoom to metrics. Talking head: static medium shot.

SCRIPT / AUDIO

> *"Luka Kovač. 22 let, študent iz Maribora. Začel je z ničlo. V 6 tednih — 12,300 sledilcev in €1,840 na mesec. Dela 2 uri na dan."*

TEXT OVERLAY

> **Lower-third: LUKA KOVAČ · 22 let · Maribor**
> **Stats: 12,300 sledilcev → €1,840/mesec → 6 tednov → 2 uri/dan**

MUSIC / SFX

UI pop on each metric. Sub bass on "€1,840". Music keeps rhythmic pace — this section should feel like a montage.

MOOD

Impressive, aspirational. Young guy, no experience, massive results. Viewers think "he's like me."

IN: Quick cut from proof intro **OUT:** Smooth zoom transition to next testimonial

10 Testimonial: Ana Horvat

1:18 – 1:29 | SCREEN + TALKING HEAD | 11S | 🔥 HIGH

VISUAL DESCRIPTION

Same format as Scene 9 but mirrored (screenshot slides in from left). Ana's profile/photo with lower-third: "ANA HORVAT · 34 · Mama, Ljubljana". Metrics: "€780 → €2,100/mesec" (use arrow animation showing growth, numbers count up), "3 meseci", "Ob otrocih" (with a subtle relevant emoji). Cut to Pici with PIP of Ana's screenshot in upper-left.

CAMERA MOVEMENT

Screenshot: slow zoom. Talking head: slight punch-in (1.03x) to differentiate from Luka's scene.

SCRIPT / AUDIO

> *"Ana Horvat. 34 let, mama dveh otrok iz Ljubljane. Prvi mesec — €780. Po treh mesecih? €2,100 na mesec. Ob otrocih."*

TEXT OVERLAY

> **ANA HORVAT · 34 let · Ljubljana**
> **€780 → €2,100/mesec · 3 meseci · Ob otrocih**

MUSIC / SFX

Same rhythm as Scene 9. The arrow/growth animation gets a rising whoosh. Sub bass on "€2,100".

MOOD

Relatable, emotional. A mom doing it alongside kids. Breaks the "I don't have time" objection.

IN: Smooth zoom from Scene 9 OUT: Smooth zoom to Scene 11

11 Testimonial: Matej Zupan

1:29 – 1:39 | SCREEN + TALKING HEAD | 10S | 🔥 HIGH

VISUAL DESCRIPTION

Matej's screenshot reveals from right. Lower-third: "MATEJ ZUPAN · 28 · Programer, Celje". Key metric: "€4,750" in large green text — this is the highest individual number so far, make it visually bigger. Sub-metric: "2 meseca · Poleg redne službe". Cut to Pici,

CAMERA MOVEMENT

Quick zoom into the €4,750 figure on the screenshot. Talking head: medium shot, different framing.

more animated — the numbers are getting bigger.

SCRIPT / AUDIO

> *"Matej Zupan. 28 let, programer iz Celja. Odprl je AI agencijo poleg redne službe. €4,750 v dveh mesecih — brez da bi dal odpoved."*

TEXT OVERLAY

> **MATEJ ZUPAN · 28 let · Celje**
> **€4,750 · 2 meseca · Poleg redne službe**

MUSIC / SFX

Bigger bass drop on €4,750 — this is the proof stack's crescendo moment. Brief glitch effect on the number for emphasis.

MOOD

Impressive, ambitious. Someone with a job adding serious side income. "I could do that too."

IN: Smooth zoom from Scene 10 OUT: Quick cut to Scene 12

12 Testimonial: Nina Krajnc

1:39 – 1:48 | SCREEN + TALKING HEAD | 9S | 🔥 HIGH

VISUAL DESCRIPTION

Nina's TikTok profile screenshot — 23,000+ followers visible. Lower-third: "NINA KRAJNC · 20 · Študentka, Koper". Metric highlight: "23,000+ sledilcev" + "Sponzorske pogodbe" with a handshake/deal icon. The youth angle is key — show TikTok UI elements to emphasize the platform. Cut to Pici with amused, proud expression. Emphasis on "Pri dvajsetih."

CAMERA MOVEMENT

TikTok screenshot: scroll effect (as if scrolling through her profile). Talking head: static close-up.

SCRIPT / AUDIO

> *"Nina Krajnc. 20 let, študentka iz Kopra. 23,000+ sledilcev na TikToku. Podpisuje sponzorske pogodbe. Pri dvajsetih."*

TEXT OVERLAY

NINA KRAJNC · 20 let · Koper
23,000+ sledilcev · Sponzorske pogodbe · Pri 20 letih

MUSIC / SFX

Lighter energy momentarily — matches youth/fun TikTok vibe. UI scroll sounds. Pop on "Pri dvajsetih."

MOOD

Inspiring, youthful energy. If a 20-year-old student can do it... Addresses age objection.

IN: Quick cut from Matej OUT: Quick cut to Scene 13

13 Testimonial: Gregor Vidmar

1:48 – 1:58 | SCREEN + TALKING HEAD | 10S | 🔥 HIGH

VISUAL DESCRIPTION

This is the most emotionally powerful testimonial — lead with it visually. Gregor's results screenshot with dramatic reveal: start on a dark screen with just "BREZPOSELN" in red text, then it transforms/dissolves into "€2,300/MESEC" in bright green. This visual contrast tells the whole story in 2 seconds. Lower-third: "GREGOR VIDMAR · 41 · Novo mesto". Cut to Pici with serious, empathetic expression.

CAMERA MOVEMENT

Text transition: static. Talking head: slow zoom-in (emotional moment).

SCRIPT / AUDIO

"Gregor Vidmar. 41 let. Bil je brezposeln. Iz Novega mesta. Od dobesednega niča do €2,300 na mesec v treh mesecih."

TEXT OVERLAY

BREZPOSELN → €2,300/MESEC (dramatic color transition)
GREGOR VIDMAR · 41 let · Novo mesto · 3 meseci

MUSIC / SFX

MOOD

Music drops to minimal for "Bil je brezposeln" — let it hit. Then swells back when showing the result. Emotional synth pad. Deep bass on €2,300.

Emotional gut punch. This breaks the "but my situation is different/worse" objection. If someone unemployed can do it...

IN: Quick cut from Nina OUT: Quick cut to Scene 14

14 Testimonial: Tina Novak

1:58 – 2:07 | SCREEN + TALKING HEAD | 9S | 🔥 HIGH

VISUAL DESCRIPTION

Tina's screenshot with dual metrics: Left side shows "15 ur/teden PRIHRANEK" with a clock icon, right side shows "€1,600/mesec PASIVNO" in green. The "passive income" angle is different from previous testimonials — emphasize "PASIVNO" with a glow effect. Lower-third: "TINA NOVAK · 31 · Podjetnica, Kranj". Cut to Pici with satisfied nod.

CAMERA MOVEMENT

Split-metric graphic: slight bounce-in animation. Talking head: static.

SCRIPT / AUDIO

> *"In Tina Novak. 31 let, podjetnica iz Kranja. Prihrani 15 ur na teden in zasluži €1,600 na mesec pasivnega prihodka."*

TEXT OVERLAY

TINA NOVAK · 31 let · Kranj
🕐 **15 ur/teden prihranek · €1,600/mesec PASIVNO**

MUSIC / SFX

Steady energy. Dual pop sounds for the two metrics appearing. Cash register subtle SFX on "pasivno."

MOOD

Smart, efficient. Appeals to busy professionals. Time saved + money made = double value proposition.

IN: Quick cut from Gregor OUT: Cut to proof conclusion

15 Proof Stack Conclusion

2:07 – 2:15 | CLOSE-UP | 8S | 🎯 CLIMAX

VISUAL DESCRIPTION

Close-up on Pici, maximum intensity. Behind him (or overlaid), all six testimonial photos/names briefly flash in a rapid montage (0.3s each) before settling into a clean close-up. He speaks with absolute conviction. On "brezplačno" — text appears in green, same treatment as Scene 3. On "čez 35 dni" — a countdown graphic briefly appears: "35 DNI".

CAMERA MOVEMENT

Static close-up. Steady, locked off. The stillness after the rapid proof stack creates power.

SCRIPT / AUDIO

> *"Ti ljudje niso genije. Niso imeli sreče. Uporabili so sistem, ki ti ga bom pokazal — brezplačno — čez 35 dni."*

TEXT OVERLAY

> **BREZPLAČNO · ČEZ 35 DNI**

MUSIC / SFX

Music builds to mini-crescendo, then drops. Brief silence. Then transition whoosh into Event section. This is a "breath" moment.

MOOD

Powerful conclusion. Six proofs stacked, now the direct bridge: these aren't special people, they used a system, and you can too.

IN: Cut from Tina **OUT:** Fade to black (0.5s) → Event section

📢 THE EVENT — 2:15–3:15

16 Event Reveal — Title Card

2:15 – 2:25 | TEXT SLIDE + MEDIUM | 10S | 📈 BUILDING

VISUAL DESCRIPTION

Full-screen animated title card: Deep purple gradient background. "AI UNIVERSA" logo/text animates in — large, centered, with subtle particle effects or light rays emanating from behind the text. Below: "15.–17. APRIL 2026" in white, and "BREZPLAČNO" in green. The whole graphic feels like a movie poster reveal. Hold for 3 seconds, then cut to Pici in medium shot explaining.

CAMERA MOVEMENT

Title card: slow drift/parallax on layers. Talking head: static medium.

SCRIPT / AUDIO

> *"Organiziram 3-dnevni brezplačni workshop v živo na YouTubu. Ime: AI Universa."*

TEXT OVERLAY

> AI UNIVERSA
> 15.–17. APRIL 2026 · V ŽIVO NA YOUTUBE · BREZPLAČNO

MUSIC / SFX

New music cue — slightly more upbeat/hopeful. Cinematic reveal sound (orchestral hit + synth swell) on title card appearance. Sparkle/shimmer SFX on text animation.

MOOD

Grand reveal. This is the first time the viewer sees what they're being invited to. Make it feel like a movie premiere.

IN: Fade from black (out of Proof section) **OUT:** Cut to 3-day breakdown

17 Day-by-Day Breakdown

2:25 – 2:55 | GRAPHICS + TALKING HEAD | 30S | 📈 BUILDING

VISUAL DESCRIPTION

CAMERA MOVEMENT

Animated infographic showing three cards/columns, each revealing in sequence:

Card 1 (Dan 1): Purple card with "DAN 1" header, icon of camera/content, "AI Influencer Workflows" title, brief description. Connects visually back to Luka's result.

Card 2 (Dan 2): Slides in from right. "DAN 2" header, briefcase icon, "AI Agency Workflows" title. Connects to Matej.

Card 3 (Dan 3): Slides in from right. "DAN 3" header, robot/bot icon, "AI Agenti & Claw Bot V ŽIVO" title. Car emoji/icon for prize draw.

Between each card reveal, quick cut to Pici describing it. PIP of the 3-day graphic stays in corner.

Graphics: slide-in animations. Talking head: alternating medium and close-up (use punch-in for variety).

SCRIPT / AUDIO

> *"Dan 1 — AI Influencer Workflows. Pokazal ti bom, kako zaslužiti z vsebinami brez da pokažeš obraz. Točno tako, kot je naredil Luka. Dan 2 — AI Agency Workflows. Kako zgradiš agencijo brez ekipe in brez pisarne. Isto, kar dela Matej poleg službe. Dan 3 — AI Agenti & Claw Bot V ŽIVO. Pred tvojimi očmi bom zgradil AI agenta v realnem času. Plus — žrebanje za avto."*

> **DAN 1: AI Influencer Workflows**
> **DAN 2: AI Agency Workflows**
> **DAN 3: AI Agenti & Claw Bot V ŽIVO + 🚗 Žrebanje za avto**

MUSIC / SFX

Upbeat pulse continues. Whoosh on each card reveal. On "žrebanje za avto" — brief exciting stinger (game show-style), car engine rev SFX.

MOOD

Clear, structured, exciting. Each day promises tangible value. The car mention is the cherry on top.

IN: Cut from title card OUT: Cut to Scene 18

18 LIVE Emphasis

2:55 – 3:08 | CLOSE-UP | 13S | 🔥 HIGH

VISUAL DESCRIPTION

Tight close-up on Pici. Intense, direct eye contact. When he says "V ŽIVO" — the text flashes on screen in large red/white text with a pulsing "LIVE" indicator dot animation (like a YouTube Live badge). When he says "24 ur" — a countdown clock graphic briefly appears. He's creating urgency about the live nature — not a replay, not evergreen, LIVE.

CAMERA MOVEMENT

Static close-up, slowly tightening (1.0x → 1.04x zoom). Increases intensity.

SCRIPT / AUDIO

> *"To ni posnetek. To ni webinar, ki si ga lahko pogledaš kadarkoli. To je V ŽIVO. Replay bo na voljo 24 ur — potem izgine."*

TEXT OVERLAY

🔴 **V ŽIVO | ⏰ Replay: 24 ur — potem IZGINE**

MUSIC / SFX

Music intensifies. Ticking clock SFX under "24 ur". Dramatic stinger on "potem izgine." Brief silence after.

MOOD

Urgency. FOMO activation. "If I don't show up live, I miss it." The replay limitation makes it scarce.

IN: Cut from day breakdown OUT: Cut to Authority section

💪 AUTHORITY — 3:15–3:35

19 The Numbers — Authority Flex

3:15 – 3:25 | TEXT SLIDE + MEDIUM | 10S | 🔥 HIGH

VISUAL DESCRIPTION

Three massive numbers animate in sequence on dark background, each with its own line:
"200M+" (views icon) — counter animation from 0
"155,000+" (followers icon) — counter animation
"1,000+" (students icon) — counter animation
All in white with purple accent glow. Then cut to medium shot of Pici with all three numbers displayed as a lower-third bar beneath him.

CAMERA MOVEMENT

Numbers: static with subtle float. Talking head: static medium, strong posture.

SCRIPT / AUDIO

> *"Zakaj bi mi zaupal? Ker imam 200 milijonov ogledov, 155,000+ sledilcev, in več kot 1,000 študentov, ki so skupaj zaslužili več kot €41,000. Številke ne lažejo."*

TEXT OVERLAY

> **200M+ ogledov · 155,000+ sledilcev · 1,000+ študentov · €41,127+ zaslužka**

MUSIC / SFX

Each counter gets its own bass hit + UI sound. Rapid-fire reveals (1.5s apart). Music is confident, strong beat. Glitch transition between numbers.

MOOD

Pure authority. Numbers speak for themselves. Fast, confident, no explanation needed.

IN: Cut from LIVE emphasis **OUT:** Cut to Scene 20

20 "Številke ne lažejo" — Mic Drop

3:25 – 3:35 | CLOSE-UP | 10S | 🎯 CLIMAX

VISUAL DESCRIPTION

Tight close-up. Pici delivers the line "Številke ne lažejo" with complete calm confidence — not aggressive, just matter-of-fact. The text "ŠTEVILKE NE LAŽEJO" appears in bold white, centered, with a subtle purple underline glow. Hold for 1.5 seconds on the text after he says it. This is a mic-drop moment.

CAMERA MOVEMENT

Static. No movement. Absolute confidence requires absolute stillness.

SCRIPT / AUDIO

> *"Številke ne lažejo."*

TEXT OVERLAY

> **ŠTEVILKE NE LAŽEJO.**

MUSIC / SFX

Music drops out completely for this line. Just voice + room tone. The silence IS the emphasis. Then music resumes for bonuses section.

MOOD

Definitive. No argument left. Trust is established. Transition from "should I trust him?" to "okay, I trust him."

Then, the prize reveal: animated graphic showing prizes appearing one by one with excitement — Car silhouette (biggest, center) → 3x MacBook Pro (lined up below-left) → iPhone (below-right). Each prize scales in with a golden/green glow. "NAGRADNA IGRA" header. Cut to Pici in medium shot. He's excited but not cheesy — the prizes are real value adds, not gimmicks.

SCRIPT / AUDIO

> *"Vsak, ki se prijavi, dobi brezplačen prompt pack — nabor AI promptov, ki jih lahko takoj uporabiš. In ker želim, da bo to nepozabno — med prijavljenimi žrebam: avto kot glavno nagrado, 3x MacBook Pro in iPhone. Samo za prijavljene. Samo za tiste, ki se odločijo zdaj."*

TEXT OVERLAY

> **"Samo za prijavljene"**

MUSIC / SFX

Upbeat, exciting. Prize reveal gets game-show-style stingers. Sparkle/shimmer SFX on each prize. Music energy is at its highest. Car engine rev on car reveal.

MOOD

Exciting, generous, "too good to be true but it is." Stacking value on top of already-free event.

IN: Quick cut from Authority OUT: Cut to Urgency

22 The 35-Day Question

3:55 – 4:10 | CLOSE-UP | 15S | 🎯 CLIMAX

VISUAL DESCRIPTION

CAMERA MOVEMENT

Tight close-up on Pici. Serious tone shift — he's no longer selling, he's speaking to you directly as a person. Lighting may slightly darken (can be done in post — reduce exposure by 0.2 stops). No graphics, no text overlays for the first 8 seconds — just Pici's face and voice. Then at "Mesta so omejena" — text appears: "MESTA SO OMEJENA" in white with subtle red urgency glow. At "Ko se zapolni — se zapolni" — text adds: "KO JE POLNO, JE POLNO." with a visual of seats/spots disappearing (animated progress bar filling up).

Very slow zoom-in throughout. Ending tighter than any previous shot. Maximum intimacy.

SCRIPT / AUDIO

> *"Naslednji 35 dni bo minilo tako ali tako. Vprašanje je samo — ali boš čez 35 dni na istem mestu, ali boš na AI Universi, z vsemi orodji in znanjem, da začneš zaslužiti? Mesta so omejena. Workshop je v živo. Ko se zapolni — se zapolni."*

TEXT OVERLAY

> **MESTA SO OMEJENA · KO JE POLNO, JE POLNO.**

MUSIC / SFX

Music drops to minimal — just a low, ominous drone. Ticking clock SFX very quietly underneath. The emptiness creates tension. Rising swell into the CTA.

MOOD

Serious, personal, urgent. Not hype — genuine concern. "I'm telling you as a friend." The 35-day framing makes the deadline feel real and tangible.

IN: Cut from bonuses (tone shift) OUT: Quick cut to final CTA

23 CTA — URL Reveal

4:10 – 4:20 | TEXT SLIDE + MEDIUM | 10S | 🎯 CLIMAX

VISUAL DESCRIPTION

Above: a recap strip showing icons: 🎁 Prompt Pack + 🚗 Avto + 💻 MacBook + 📱 iPhone. The URL should be the most visually dominant element on screen. Hold for 3 seconds, then cut to Pici for the verbal close.

medium shot, open posture.

SCRIPT / AUDIO

> *"Klikni spodaj in rezerviraj svoje brezplačno mesto. Brezplačno. Nič ne tvegaš. Dobiš prompt pack, udeležiš se žrebanja za avto, in za tri dni dobiš vse, kar rabiš, da začneš zaslužiti z AI."*

MUSIC / SFX

Music at full energy — triumphant, resolved. The tension from urgency section releases into action. Click/UI sounds on CTA button animation. Music should feel like "the answer is here."

MOOD

Action. Everything has built to this moment. Make it stupidly easy to know what to do: click, sign up, free.

TEXT OVERLAY

> **End card: aiuniversa.si · BREZPLAČNO · 15.–17. april 2026 · 19:00 CEST**

MUSIC / SFX

Music resolves — final chord/note. Clean, satisfying ending. No abrupt cut. Music fades over end card (5s fade). Optional: subtle ambient pad continues under end card.

MOOD

Warm, confident, final. Not desperate — certain. "I'll see you there" assumes they'll come. The end card gives them time to act.

3 Shot List

Production Day Checklist

🎬 Talking Head Setups

Two primary setups needed. Record all lines for both angles, then alternate in edit.

SETUP	FRAMING	USED IN	NOTES
Setup A: Medium	Chest up, subject on left third	Opportunity, Event, Bonuses, most dialogue	Main workhorse shot. Leave space on right for text overlays.
Setup B: Close-up	Face/shoulders, tight crop	Hook, Proof conclusion, Urgency, CTA, key emotional beats	Maximum intensity moments. Eyes at upper third line.

Tip: If using a single camera, record the full script twice — once medium, once close-up. Or use 4K recording and punch-in digitally for the close-up.

📹 B-Roll Needed

- ☐ AI dashboard screen recording — analytics graphs, growth charts, revenue metrics (30s+ of varied footage)
- ☐ ChatGPT / AI tool interface — typing prompts, generating content (20s)
- ☐ Social media analytics — follower growth graphs, engagement metrics (15s)
- ☐ Someone working on laptop in dark room with purple lighting (lifestyle shot — 15s)

- ☐ Phone with notifications/social media scrolling (close-up of hands — 10s)
- ☐ Modern minimalist workspace with screens showing AI tools (wide establishing — 10s)

📸 Screenshots & Graphics Needed

Student Result Screenshots

- ☐ Luka Kovač — profile + earnings screenshot (12,300 followers, €1,840/mo)
- ☐ Ana Horvat — results screenshot (€780 → €2,100/mo)
- ☐ Matej Zupan — agency results (€4,750 in 2 months)
- ☐ Nina Krajnc — TikTok profile (23,000+ followers)
- ☐ Gregor Vidmar — results (€0 → €2,300/mo)
- ☐ Tina Novak — results (15 hr/wk saved, €1,600 passive)

Graphics to Create

- ☐ AI Universa logo/title card animation
- ☐ 3-day breakdown infographic (Dan 1, 2, 3 cards)
- ☐ €41,127+ aggregate results slide
- ☐ Authority numbers slide (200M+, 155K+, 1000+)
- ☐ AI Prompt Pack mockup graphic
- ☐ Prize reveal graphic (car, 3× MacBook, iPhone)
- ☐ CTA end card (aiuniversa.si + all bonuses)
- ☐ LIVE indicator badge animation
- ☐ Progress bar "seats filling" animation

✍️ Text Overlays to Prepare

All kinetic typography animations. Pre-build these as motion graphics templates (MOGRTs) or After Effects compositions for quick editing.

- ☐ Purple gel/filter (if not RGB controllable)
- ☐ Light stands (×2)
- ☐ Optional: small LED for background accent

Set / Other

- ☐ Black backdrop or dark wall
- ☐ Monitor/field recorder for preview
- ☐ Laptop for teleprompter (if needed)
- ☐ Gaffer tape, clamps, misc grip
- ☐ Slate/clapper for syncing (or hand clap)

4 Post-Production Notes

Editing, Color Grading & Export Guide

✂️ Editing Pace Guide

The editing rhythm should mirror the emotional arc. Faster cuts = more energy. Slower = more weight.

SECTION	CUTS PER MINUTE	AVERAGE SHOT LENGTH	NOTES
Hook (0:00–0:15)	20–24 CPM	2.5–3s	Rapid. Every sentence is a new visual. Maximum scroll-stopping energy.
Opportunity (0:15–1:00)	12–16 CPM	4–5s	Moderate. Mix of B-roll montage (fast) and talking head (slower).
Proof Stack (1:00–2:15)	16–20 CPM	3–4s	Fast, rhythmic. Each testimonial is its own mini-sequence. Consistent pace.
Event (2:15–3:15)	10–14 CPM	4–6s	Slightly slower — informational content. Let the day descriptions breathe.
Authority (3:15–3:35)	16–20 CPM	3–4s	Fast number reveals, then dramatic slowdown for "Številke ne lažejo."
Bonuses (3:35–3:55)	14–18 CPM	3–4s	Exciting, visual-heavy. Prize reveals are quick, descriptions slightly slower.
Urgency (3:55–4:20)	6–10 CPM	6–10s	Slow. Long takes. Let the words land. This is weight, not

			speed.
CTA (4:20–4:35)	8–12 CPM	5–7s	Clear, clean. URL on screen for maximum time. Don't cut away from CTA.

🎨 Color Grading Specs

Primary Correction

- **Exposure:** Slightly underexpose (-0.3 to -0.5 stops) for dark, moody feel
- **Contrast:** +25 to +35 (high contrast)
- **Highlights:** -15 (retain detail)
- **Shadows:** -20 to -30 (crush blacks)
- **Blacks:** -10 to -15 (deep crush)
- **Whites:** +10 (keep some pop)
- **Saturation:** -15 to -20 (desaturated look)
- **Vibrance:** -5 to -10

Split Toning

- **Shadow hue:** 270° (purple)
- **Shadow saturation:** 15–20%
- **Highlight hue:** 180° (teal/cyan)
- **Highlight saturation:** 8–12%
- **Balance:** -15 (favor shadows)

Secondary Corrections

- **Skin tones:** Use HSL qualifier to isolate skin, boost saturation +10, add slight warmth (+5 orange). Protect from overall desaturation.
- **Vignette:** -0.4 amount, 50 midpoint, 60 roundness

LUT Reference: If using a LUT as starting point, try "Film Noir" or "Teal & Orange" variants, then shift the orange toward purple in shadows. Commercial LUT packs: Tropic Colour "Dark Moody," Peter McKinnon "Dark & Moody."

🔤 Text Animation Style Guide

Standard Text Slam

- Duration: 0.3s ease-out
- Motion: Scale from 120% → 100% + position from 30px below → 0

Counter/Odometer Animation

- Duration: 1.0–1.5s
- Easing: Ease-out (fast start, slow end)
- Start: €0 or 0

- Overshoot: Slight bounce (elastic ease, 1 bounce)
- Hold: 2–3 seconds
- Exit: Scale down to 95% + fade (0.2s)
- End: Target number
- Add subtle tick/click SFX during count
- Final number gets a scale pulse (102% → 100%)

Lower-Third Name Cards

- Background: Semi-transparent dark bar (#0a0c1e at 85%)
- Height: 60px
- Entry: Slide in from left, 0.4s ease-out
- Purple accent line (4px) on top of the bar
- Text: Name (bold white) · Details (regular, #B8B8B8)
- Hold: Full duration of the testimonial
- Exit: Slide out left, 0.3s

Glitch Effect Specs

- Duration: 3–5 frames (0.12–0.2s at 24fps)
- RGB split: Offset Red +8px right, Blue +8px left
- Horizontal slice displacement: 3–5 random horizontal slices offset 5–15px
- Brightness flash: +30% for 1 frame
- Pair with digital glitch SFX
- Use sparingly: max 4–5 times per VSL

🎵 Music & SFX Timing Notes

TIMESTAMP	AUDIO EVENT	TYPE	NOTES
0:00	Deep bass drone begins	Music	Immediate — no silence at start. Grabs attention with the voice.
0:02	Cha-ching on €1,840	SFX	Subtle, not comedy. Think premium notification sound.

0:05	UI pop on screenshot	SFX	Clean digital sound. Glass tap.
0:14	Music dip (breath)	Music	Creates section transition feel.
0:15	Whoosh + new music energy	Both	Whip pan transition. Music gets a pulse/beat.
0:25	Glitch SFX on text transform	SFX	"AI NI PRIHODNOST → AI JE ZDAJ" glitch.
0:35	Bass drop on €41,127	SFX	Sub-bass (60–80Hz), 0.5s decay.
0:55	Music drops near-silent	Music	"Točno to priložnost imaš zdaj tudi ti" — voice-only moment.
1:00	Tension riser → beat drop	Both	Reverse cymbal into rhythmic proof stack music.
1:07–2:07	Consistent beat under testimonials	Music	Keep rhythm steady. UI pops on each stat. Bass hits on € amounts.
1:48	Music drops for "brezposeln"	Music	Gregor's story — emotional moment. Let the word hit in near-silence.
2:07	Mini-crescendo → drop	Music	Proof conclusion. Music peaks then falls for transition.
2:15	New music cue — upbeat reveal	Music	Event title card. Feels like "here's the answer." Cinematic reveal.
2:48	Car engine rev	SFX	On "žrebanje za avto." Brief, playful.
3:15	Authority beat — confident	Music	Strong, rhythmic. Numbers land on beats.
3:28	Music drops to silence	Music	"Številke ne lažejo." — voice only. Max 1.5s silence.

3:35	Exciting music cue	Music	Prize reveal. Game show energy. Not cheesy — premium excitement.
3:55	Music drops to drone + clock	Both	Urgency section. Ticking clock very low in mix (-30dB). Ominous.
4:10	Music resolves — triumphant	Music	CTA. Tension releases. "The answer is here." Full energy.
4:25	Music fade out	Music	5-second fade over end card. Clean ending.

📤 Export Settings

YouTube (Primary — 16:9)

- **Resolution:** 1920×1080 (1080p)
- **Codec:** H.264 (High Profile)
- **Bitrate:** 16–20 Mbps VBR
- **Frame rate:** 24fps
- **Audio:** AAC, 320kbps, stereo
- **Color space:** Rec. 709
- **Container:** .mp4
- **Naming:** `VSL1-Proof-YT-v[X].mp4`

Instagram Reels / TikTok (Vertical — 9:16)

- **Resolution:** 1080×1920
- **Codec:** H.264
- **Bitrate:** 12–16 Mbps VBR
- **Frame rate:** 24fps (or 30fps for IG)
- **Audio:** AAC, 256kbps, stereo
- **Duration:** Cut to 60–90s (Hook + abbreviated Proof + CTA)
- **Safe zones:** Keep all text in center 80% (away from IG UI)
- **Naming:** `VSL1-Proof-Reel-v[X].mp4`

Additional Exports

- **Facebook Ads:** Same as YouTube specs. Optionally export 1:1 (1080×1080) version with text repositioned.
- **Archive/Master:** ProRes 422 or DNxHR HQ, 3840×2160, for future re-edits.

- **Thumbnail:** Export a still frame from the hook (Scene 1 or 2) at 1920×1080 PNG for YouTube thumbnail base.

📱 Vertical Cut (Reels/TikTok) — Special Notes

The vertical cut is NOT the full VSL. It's a condensed version optimized for mobile-first short-form platforms.

- **Duration:** 60–90 seconds max
- **Structure:** Hook (0:00–0:10) → 2–3 best testimonials (0:10–0:40) → Event + CTA (0:40–1:00)
- **Skip:** Opportunity section, Authority section, detailed event breakdown — no room
- **Text overlays:** Must be larger (30% bigger than landscape version) for mobile readability
- **Captions:** Add burned-in Slovenian captions (auto-caption or manual). 80% of mobile viewers watch without sound initially.
- **CTA:** End with "Link v bio" instead of "Klikni spodaj" for IG. Show URL briefly but rely on bio link.
- **Aspect ratio conversion:** Crop from 16:9 master, reframe subject to center. May need manual keyframing for medium shots where subject is off-center.
